

Appendices

Appendix A

Final SEIS on Management of Late-Successional and Old-Growth Forest-Related Species Within the Range of the Northern Spotted Owl, 1994

Appendix A

Description of the Final Supplemental Environmental Impact Statement on Management of Habitat for Late-Successional and Old-Growth Forest-Related Species Within the Range of the Northern Spotted Owl, which this Final SEIS Tiers to and Supplements

This appendix describes the Final SEIS for the Northwest Forest Plan (USDA, USDI 1994a). It provides the analysis for the Northwest Forest Plan and served as the basis for the Record of Decision for Amendments to Forest Service and Bureau of Land Management planning documents within the range of the northern spotted owl.

The Northwest Forest Plan FSEIS is a multi-volume document. Volume 1 consists of a summary and three chapters: Chapter 1-Purpose and Need, Chapter 2-Alternatives, and Chapter 3&4-Affected Environment and Environmental Consequences, as well as the glossary, distribution list, and list of preparers. Volume 2 has 9 appendices (A-I), as follows:

- A - Forest Ecosystem Management: An Ecological, Economic, and Social Assessment (Report of the Forest Ecosystem Management Assessment Team)
- B - Additional Information on Standards and Guidelines
- C - Letters of Direction
- D - Related Direction and Activities
- E - Implementation Structure
- F - Response to Public Comments
- G - Final Biological Opinion
- H - Scientific Analysis Team (SAT) Report
- I - Monitoring and Evaluation Plan

Appendix J consists of separately bound technical information documents. Appendix J2, separately bound, contains Results of Additional Species Analysis, upon which much of the analysis in this Survey and Manage SEIS is based.

To receive a copy of the Northwest Forest Plan FSEIS, send a request specifying whether you want the entire document or only portions (Volume 1, Volume 2, or Appendix J2). Send your request to:
